PROFESSIONAL SUMMARY

Motivated Cybersecurity professional with hands-on experience in **Security Operations Center (SOC)** workflows, **SIEM technologies**, and **threat analysis**. Built home SOC lab using Azure Sentinel gaining practical experience in alert triage, log analysis, incident detection, and threat hunting. Strong foundation in networking protocols (TCP/IP, DNS, HTTP/HTTPS), Windows/Linux security, and security frameworks (MITRE ATT&CK, Kill Chain). Proficient in Python, Java, and C with demonstrated ability to analyze security events, correlate threats, and document incident response procedures. Eager to contribute to enterprise SOC operations while developing expertise in advanced threat detection and security automation.

TECHNICAL SKILLS

SOC & Security Operations: SIEM (Azure Sentinel, Splunk concepts, Security Onion), Alert Triage, Threat Detection, Log Analysis, Security Monitoring, Incident Response, Threat Hunting, KQL (Kusto Query Language)

Threat Analysis: Malware Analysis Basics, Phishing Detection, IOC Identification, Threat Intelligence, MITRE ATT&CK Framework, Attack Pattern Recognition, Anomaly Detection

Security Tools: Burp Suite, OWASP ZAP, Nmap, Wireshark (Packet Analysis), Nessus/Qualys (Vulnerability Scanning), Metasploit Basics, tcpdump

Operating Systems: Windows Security (Event Logs, Registry, PowerShell), Linux Security (Auth Logs, File Permissions, Bash), Active Directory Basics

Networking: TCP/IP Protocol Suite, DNS, HTTP/HTTPS, Firewalls, VPNs, Network Segmentation, OSI Model, Packet Analysis

Programming: Python (Security Scripting, Automation), Java, C, Bash Scripting, SQL (Log Queries)

Cloud Security: AWS (IAM, CloudWatch, GuardDuty — Certified), Azure (Sentinel, Monitor, Security Center)

Frameworks: NIST Cybersecurity Framework, MITRE ATT&CK, Cyber Kill Chain, Incident Response Lifecycle

SOC & SECURITY PROJECTS

Home SOC Lab — 24/7 Security Monitoring & SIEM **2024 – Present**
Azure Sentinel | Log Analytics | KQL | Threat Detection *SOC Analyst*

- Built home SOC using Azure Sentinel; Log Analytics; monitor 24/7; custom KQL queries for threat hunting; automated alerts for privilege escalation, brute force, lateral movement; triage alerts by severity; analyze Windows/Linux logs; document incidents; generate weekly reports

Brute Force Attack Detection — Incident Analysis **2024**
Linux Logs | Python | Incident Response *Security Analyst*

- Analyzed /var/log/auth.log for brute force attempts; correlated failed/successful logins across IPs, usernames, timestamps; assessed impact; documented SOC-style incident report with IOCs, timeline, severity; recommended fail2ban, MFA, SSH restrictions

Library Management System **2023–2024**
Python | Flask | Security Controls *Developer*

- Implemented authentication, RBAC, input validation, session management; applied OWASP principles; protected against SQL injection, XSS, CSRF

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Vice President — Technical & Cybersecurity Club **2023 – Present**
KL University (100+ Members) *Guntur, India*

- Led 15+ cybersecurity workshops covering SOC operations, SIEM technologies, threat analysis, incident response, and security best practices; improved member technical proficiency by 40%
- Coordinated cross-functional teams across 3 hackathons (200+ participants); demonstrated strong communication, collaboration, and problem-solving skills essential for SOC operations

EDUCATION

B.Tech — Cybersecurity & Blockchain Technology **Aug 2022 – May 2026**
KL University | GPA: 7.5+/10 *Guntur, India*

Relevant Coursework: Network Security, SOC Operations, Incident Response, Malware Analysis, Threat Intelligence, SIEM Technologies, Security Frameworks, Digital Forensics, Cryptography

Narayana Junior College — Intermediate (2020–2022), Vijayawada

Bhashyam High School — SSC (2019–2020), Ongole

CERTIFICATIONS & CONTINUOUS LEARNING

AWS Certified Cloud Practitioner — Amazon Web Services (Security Monitoring, Incident Response, Cloud Infrastructure)

PMKV 4.0 — Advanced Technical Training & Professional Development

In Progress: CompTIA Security+ (Studying), TryHackMe (Active SOC/Blue Team Labs), MITRE ATT&CK Framework Training

ADDITIONAL INFORMATION

Availability: Immediate (Graduating May 2026) | **Shift Work:** Willing to work rotating shifts, weekends, on-call | **Relocation:** PAN India | **Strengths:** Analytical thinking, attention to detail, fast learner, team collaboration, calm under pressure

| **Interests:** Threat hunting, malware analysis, security automation, open-source security tools
